Subject: RE: State Senator's allegations (UNCLASSIFIED)

All, just spoke with Mike Zlatich at county. He was only interested in the two site allegations. He was on mobile going home but mentioned the following from memory on the County Board of Elections offices at 12 Sunnen Drive in Maplewood MO. It is a private property used for election purposes and back in 2009 and 2011 they were contacted by a number of folks that worked on the election issues regarding concerns of potential illnesses and cancers. He seemed to remember the property owner performed an assessment with VOC sampling for indoor air concerns but did not find anything abnormal (maybe a phase I/II ESA). Did not look at Rad. Mike was going to check their records tomorrow and send our way. I told him we were also checking these areas (not sites) with in our records, team members and with the Corps FUSRAP program but so far nothing significant on either location has been found. And checking with MDNR for their feedback. Note, this location is South of Hwy 64 and SE of Bridgeton approximately 15 miles away (about 8 miles due south of Ferguson).

Told him Ben and I had left both him and Dr. Khan a voicemail, which he appreciated. Said Dr. Khan is out of the office on a pilgrimage to Mecca last week and this one but will be back next week. We can discuss it further Wednesday.

I called Aaron Schmidt this morning. He is waiting on a summary from Brandon who was out of the office last week, but he has been told that the Sunnen Drive site was labeled as a possible FUSRAP site, an assessment was done by the property owner (possibly some kind rad scan) and didn't find anything. Maybe the assessment was done by the owner as possible voluntary cleanup site but when nothing was

found they didn't go any further.

Curious that St Louis USACE wasn't aware of it. But will pass along any specific information I get from MDNR.

He said he didn't think they had anything on the petrolite or petrocite (SP??) site. And they didn't know anything about the Rams practice site.

Thank you,

FUSRAP and KC Corps is not familiar with two locations identified by Senator Chappelle-Nadal and highlighted for discussion by Mike Zlatic. Also, quarried SDMS on multiple configurations of Ram's Park and County Board of Elections offices at 12 Sunnen Drive in Maplewood MO and nothing came up by site search. Called Matt to see if he knew of them. He doesn't recall either but will be here Monday morning and we plan to discuss it further to see if he remembers anything significant.

Brad,

I haven't been involved in any of the St. Louis FUSRAP sites and also checked with our Health Physicist, Joe Donakowski and he is not familiar with any of the locations mentioned in the letter from the St. Senator.

Thanks,

Paul

Brad,

Neither of those areas were identified or investigated by FUSRAP. I have tried to go to the website that is included in the State Senator's letter to Ms. Pauley of the MDNR; however, the link does not work. This website was stated as providing a history of the site in Maplewood.

Thanks,

Susan Adams

Subject: [EXTERNAL] FW: State Senator's allegations

Morning Paul,

State Senator Maria Chappelle-Nadal has raised concerns in a letter to Senator Bond (September 9 and posted on her website) concerns with radionuclide contamination at some locations. Mike Zlatic at SLCH was also looking for information on these items. We are certainly checking into it on our end but wanted

to know if your folks are familiar with either location being previously identified and/or investigated by FUSRAP. I've copied Susan too in case either location rings a bell from her program staff. Any information you can forward would be helpful and appreciated.

Thanks,

Subject: State Senator's allegations

Brad,

In preparation for our planned telephone discussion next week: Because of the recent allegations by the State Senator, I have been asked by County Administration to find out if EPA knows anything about rad contamination at:

- * Ram's Park (near West Lake Landfill)
- * County Board of Elections offices at 12 Sunnen Drive in Maplewood MO.

I have made the same request of MDNR.

Although you probably knew all of this already!

Thanks for your help,

Mike
